

International Services

Mobile Satellite Services

CHALLENGE • CREATE • CONNECT

Gilat Satcom provides essential communications services to customers in remote areas where no other form of communication is available. Whether on land, in flight or at sea, our services are ideal for government agencies, emergency services, transportation, oil & gas corporations and other entities.

Overview

Gilat Satcom mobile satellite based communication solutions utilize the leading satellite platforms including Iridium and Inmarsat. We offer global voice and data solutions with complete coverage of the earth – in deserts, oceans, airways and Polar Regions – beyond radio, cellular and other satellite services.

Our affordable global solutions keep you connected wherever life takes you – on land, in flight or at sea. With an array of portable and fixed products, Gilat Satcom mobile satellite solutions meet the specific needs of every industry.

"...global voice and data solutions with complete coverage of the earth – in deserts, oceans, airways and Polar Regions..."

On Land

Gilat Satcom leverages the leading mobile satellite platforms to provide instant voice and high-speed data services in the most remote locations around the globe. Our solutions enable professionals, remote workers, defense organizations, business people and travelers to stay in touch with their home base.

Fleet Management

Gilat Satcom's fleet-management solutions reduce risk, improve safety, ensure personal security, and optimize fleet operations. Our solutions provide you with reliable and up-to-date data on truck availability, driver performance, accidents, and more.

In Flight

Gilat Satcom satellite based in-flight solutions make communication simple, reliable and affordable. Users are able to send and receive voice, messaging and data at any altitude or position above the earth. With equipment options that are compact and simple to install, Gilat Satcom's solutions are ideal for the needs of aviation communications.

At Sea

Gilat Satcom provides a wide range of communication services for the maritime industry enabling connectivity even while deep at sea. Our cost-effective solutions help improve day-to-day operations with constant, instant connectivity. Gilat Satcom satellite based voice, data and Internet communication services comply with the most stringent regulations.
